

The Res Org Presents

The “Let’s Get Secure” Program

“Staying SAFE by staying ONE STEP AHEAD”

Here are a few things we can do for ourselves (and maybe with a little help.)

- Install a front doorbell camera 
- Install motion detector flood lights
- Make sure the car in the carport is always locked
- Place a “Club” on steering wheel in the car in carport 
- Have interior lights on timer when away
- Make sure there is a property identification system
- Put a bar in the track of sliding doors
- Put deadbolts on doors and locks on windows

Do you want to put some of these things in place?

Just call A Little Help From My Friends at 602-377-2447

The volunteers will assist you in getting the right stuff
and will happily install the items in your home.
